IMIX-7.2 USB

D2353 7 Channel 6U mixer USB 2 zones

The IMIX-7.2USB is a unique installation mixer. It's a 6U, 7 Channel, 2 Zone mixer with 2 built-in USB audio interfaces especially designed to fulfill all audio needs of a pub, school, small disco without scarifying on the ease of use. It is the world first installation mixer that shows the active channel source on a display. This will help users to select the desired source for the desired area. Each in- and output has own individual VU meters which gives you total level information in one view. The channel gain must be set at the back to prevent wrong use by non-technical users. The displays are pre-programmed with 16 different source names which can be set at the backside by an installer. It has 2 microphone inputs with an easy-to-use reverb effect and talk-over function. At the front it has direct inputs for a microphone, a line input and a dedicated phone/mp3 input. With a pair of headphones you can monitor all out- and inputs.

- Channel displays that show the input source
- 2 built-in USB audio interfaces
- VCA controlled faders
- Reverb & talk-over on microphone channels
- Individual in- and output VU's
- No extra height units needed due to recessed connectors

WINTER DEALS

Galactic RGB-600 Value Line
51325 600mW Red Green Blue Laser

The Galactic RGB 600 is the top model of the Galactic Value Line series. It has a full color output of 600mw created by 3 separate laser-diodes, Red, Green and Blue. With these three laser-diodes you can create Red, Green, Yellow, Blue, Purple, Cyan and White colors by TTL modulation. The RGB-600 has 80 patterns and different auto or sound to light programs which are selectable by DMX. Besides the higher power and more possibilities than the other models of the Galactic Value Line, the RGB-600 is also equipped with a 15K Scanner pair. This makes it possible to have faster and bigger projections with less flickering. If you want to have total control of all 80 patterns, X-Y movements, scrolling, zooming, speed and rotation you can use the 17 Channel DMX mode.

- Red, Green, Yellow, Blue, Purple, Cyan and White colors
- 80 Patterns
- 600mW, 15K Scanning
- Different auto and sound shows integrated
- IR Remote included
